MEMORANDUM FOR: Member of the Curriculum Committee

SUBJECT: Minutes of the 10 October 1974 Meeting

of the Curriculum Committee

1. On 10 October 1974, the Curriculum Committee met in STATINTL the DTR Conference Room at 0930 hours. Present were Messrs.

2. The minutes of the previous meeting were approved without discussion.

Stimates.

Estimates.

Briefed the Committee on this special course which plans to conduct for people involved in the National Intelligence Officer Program. It was apparent that this course is in response to a specific requirement from George Carver. There was some concern in the Committee that this course was more in the nature of component training rather than a general purpose Office of Training course. However, the Committee members agreed in principle with the idea of the course.

4. TARG Recommendations. The Chairman presented the Committee with a distillation of recommendations and major points made in the Training Administration Review Group's Report and asked the Committee for comments on those questions relevant to the business of the Curriculum Committee. Specifically, the Committee was divided on whether or not the Catalog should be published annually. Some opting for annual publication, others opting for biennial or triennial publication with regular updates. The Committee felt that the idea of a Publications/Editor Officer in OTR to screen OTR publications was a worthwhile idea. Committee members had no basic disagreement with the idea of partial decentralization of Registration and agreed that the Registration Group should be a focal point for general inquiries in OTR. The Committee discussed the question of minimum entrance requirements for the BOC and recommend that the DTR take cognizance of a study prepared by sometime ago and begin a dialogue with the DD/O about the development of minimum

entrance requirements for BOC students. The Committee generally agreed that a single OTR employee should handle all of the Guest Speaker activities now divided between STATINTLE. The Committee felt that many of the other recommendations were administrative in nature and did not bear directly on the business of the Curriculum Committee, but should be handled and decided upon in other forums.

- November Curriculum Committee . The Chairman reminded the Committee members of the meeting to be STATINTL held 18-20 November and recommended as a matter of procedure that the Unit Chiefs submit the information requested of them by 25 October for preliminary review. The Plans and Development Staff will add other data in the areas of cost, past student loads, and methological analysis. Chairman further suggested that, as a matter of procedure, the full Curriculum Committee be broken down into task forces to examine specific aspects of the curriculum. task forces will submit their recommendations and questions to the Curriculum Committee as a whole. The Chairman reminded Unit Chiefs to submit proposals for courses which will be conducted next year and reminded them to take into consideration such matters as synchronizing the scheduling of related Committee members agreed to this procedure.
 - Evaluation of the Curriculum Committee. The Chairman raised the question of the effectiveness of the Curriculum Committee and asked for the Committee members comments on whether the business of the Committee is of sufficient practical use to counterbalance the expenditure of staff time. There was general agreement that some forum to discuss curriculm questions was in order, but that the responsibilities and objectives of the Curriculum Committee were perhaps not as clear as they ought to be. There was some question as to whether or not the Committtee should restrict itself exclusively to curriculum matters and not to matters of training administation. There was some discussion as to the depth that the Committee members could reasonably discuss and evaluate matters of substance in the Curriculum Committee format. The Chairman agreed to study carefully the stated objectives of the Curriculum Committee and attempt to rewrite them in such a way so that the Committee members would have a clearer focus of what the Committee is trying to accomplish. the preparation required to prepare the Committee for the November meeting, we have not scheduled the next meeting until there is business of sufficient urgency to warrant calling such a meeting.

MEMORANDUM FOR: Director of Training

SUBJECT : Seminar on Preparation of National Intelligence Estimates

1. After discussion with a number of people who are or have been in the estimating business, I have come to some tentative conclusions regarding how to organize and teach the course proposed in our interim report. If what I propose is agreeable to OTR, I will forward to George Carver a memorandum outlining these proposals and, hopefully, get the show on the road by the finish of the year. In any event I think we should regard the first running as experimental both as to length and method. The essential facts in my proposal are:

- a. To have about eight participants
- b. To call the course a seminar
- c. To meet in the main building for two hours about six or eight times (leaving the number of sessions open, depending upon the wishes of the students).
- d. To have each member of the seminar write an estimate in his field on a current topic which could be published when completed, the writing to begin after the opening sessions have been completed.
- e. To have one or more sessions during the writing process to discuss any drafting or presentational problems the participants might have.
- f. To have final sessions with the participants and possibly their supervisor and the appropriate NIO's to discuss and criticize the draft estimates.
